

Gyanotsav [to be pasted at Gyanotasav page]

MCA Department has organized a baby conference titled “Gyanotsav” on 21st and 22nd March 2025, as a part of FA1 and FA2. Considering the need and nature of MCA program, we have conducted (1) Project Presentation (2) Poster Presentation (3) Paper Presentation activities under the banner of “Gyanotsav”. Department has completed FA1 and FA2 for (1) Web Development using Django (2) Data Science (3) Mathematical Foundation for Computer Application - 2 courses of FYMCA Sem II with the help of these activities. The judges from Persistent, iValua, Qualys, Abhinav Institute, and Cambridge Institute were called for the assessment.

Outcome:

- Total 69 projects were built by FY MCA students. Titles of some remarkable projects are Phishing URL Detector, Smart Hiring Hub, Crowd Sourced Urban Farming, AI-powered Healthcare Platform
- Total 35 technical posters presented on research topics like Data science and Mathematical foundations.
- Few papers are ready from SY MCA students for publication in UGC care journals
- Potential projects are shortlisted for Copyright filing
- Based on the experts evaluation reports few projects will be extended further as their mini projects.
